

E.D.I.T.H. (Exit Drill in the Home)

Smoke detector alarm sounds

Roll out of bed

Crawl to the door

Feel the door

**if cold
open door slowly
continue crawling
out of the house**

**if hot
Do not open the door
crawl to your window
open and call for help**

**Meet family at designated place
These steps must be practiced frequently with your family**

Fire is Fast

- In 30 seconds flames can be out of control.
- In 2 minutes a fire in a room can be life threatening.
- In 5 minutes a house can be filled with flames.
- Every second must be used to GET OUT!!! There is little time to think.
- Surviving should be the only consideration. Children should understand that they will have to leave behind their toys
- Review and practice the procedures for EDITH (Exit Drills in the Home).
- Designate an outside meeting place.
- Get out and stay out.
- Older children may need to be responsible for younger children depending on their room locations.
- Children must remember that their best defense against smoke and fire is sleeping with their doors closed.
- Call 911 from a cellular telephone or a neighbor's house.
